"Thank you WGU for making this journey to the 'world of computers' so pleasant. I am definitely going to take another course here"

- Asha Kumar

"I am only three lessons old, but curiosity has got the better of me, as my family is keen on me keeping up with the times. It is interesting, but not very easy to learn at our age ...it will come to us by & by with practice."

- Katy Dadachanji

"Learning computers will improve our chances of getting good jobs later in life. After joining the Basic Course, we are no longer scared of computers."

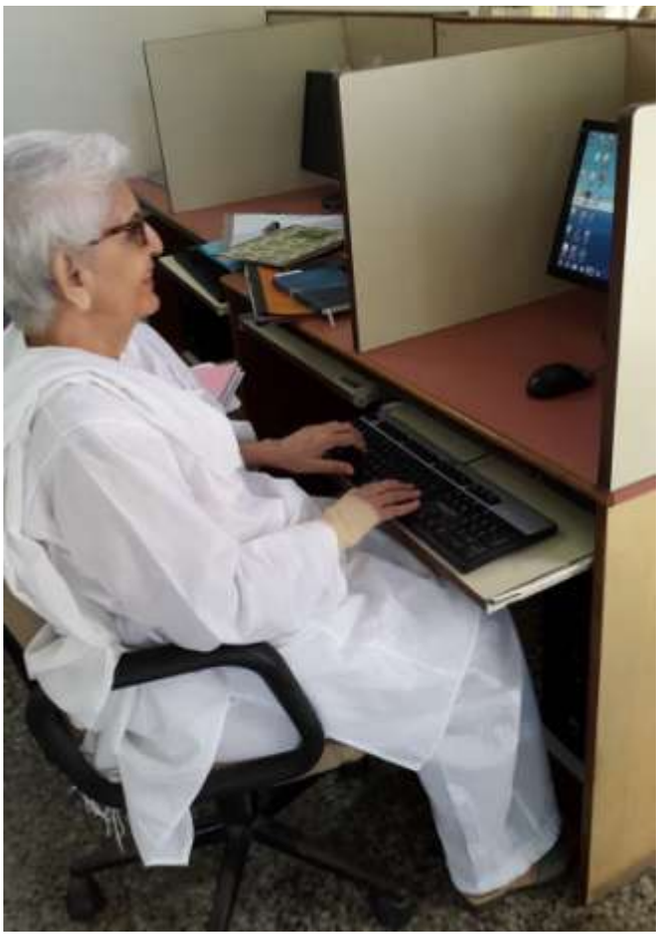
- Praveen and Akshay,
16-year olds, who have recently appeared for their Xth Standard exams

"The flow of the course I'm taking is well paced. Our trainer is very experienced and patient...any questions asked are always explained clearly."

- Renuu Patel

"Nowadays whether it be banking or booking tickets or keeping in touch with friends through email, computer knowledge is essential. I look forward to coming to the class regularly, as I am learning something new every time."

- Rashna Bharucha

"I am happy that I joined the classes. Some people do not get a chance to learn. I am enjoying it as I am getting more & more knowledge and more & more information on how to work on computers."


- Reeta Nishad
18-year old
